

# Out Of This World!

*Yesterday, the 22nd of May, caretaker Mr Harris Cotton discovered some engraved symbols on a wall at St Peters C of E Primary School, Budleigh Salterton.*

*By 7 O'clock, expert Miss Ralph was on the school playground. She explained that the engravings were from an alien species called Centauris. She was quoted having said: "The aliens had to do it to survive and have done it multiple times before."*

*Hours later, neighbours say they saw a bright light early in the morning. They just ignored it and went back to bed. Mr Cotton thought he had found the evidence of how it got there. It was from aliens from Alpha Centauri.*

*Miss Ralph had gathered some opinions of what happened. Miss Cheesman thinks the aliens are just balls of light. Miss Neary thinks it is an alien invasion.*

*Whilst the evidence is still not found, make sure you're careful around your home, the streets and in the shops. If you see any more sightings dial 07745 68907. Remember, be careful!*
