

St Peter's is starting regular beach cleans!

Why?

To support our school's new eco policy

To help protect our local environment

To instill a sense of responsibility for our loved wild spaces

Because it can be fun!

Since we have discussed single use plastics in our classrooms, we are really proud and amazed at how all of the children are taking this problem very seriously. They are spreading the word within their families and the community about the problems that plastic pollution is causing to our environment. We believe that by giving them the opportunity to help with our beach cleans and maybe other spaces that we enjoy, the children will gain a sense of achievement and encourage a sense of care for our environment.

When?

Saturday November 10th at Lime Kiln Car Park at 11am.

Children must be accompanied by an adult.

Equipment will be provided. Look for Mrs Ebsworth.
